# Product overview

## **Xperia™ miro – Made to show off what's on**

---

Find out who's doing what and where in a flash. The sleek, slim Xperia™ miro flashes blue for your Facebook™ alerts, and in your favourite theme colour for calls and alarms. Music your food of love? Chill out to soft sounds, or let the hip hop scream out. Stuck for songs? There's millions on Music Unlimited. Feeling creative? Snap scenes, or video the party action and post it all with a quick press. You and your new phone with the latest Android Ice Cream Sandwich, sharp, smart and social.

### **Made to keep you posted**

Being social just got more colourful. This stylish smartphone lights up your incoming alerts in your favourite colour. Facebook notifications flash in blue and your calls and alarms show off in the same colour as your theme. White, blue, turquoise, green, gold, red or purple. Your choice.

### **Made to enjoy Facebook**

Xperia™ with Facebook is an easier, faster, more intuitive way to like, comment, share from your smartphone and stay close to your friends. See, share, like and comment on music tracks and photos straight from the music player and photo album application. Check out what your friends are recommending on Facebook directly in the music player. See their events and birthdays in your calendar, or like music in the FM radio so people know what music is cool.

### **Made to make sweet music**

Pump up the volume and make your music shout out loud. Sony's xLOUD loudness enhancement engine gives your music the respect it deserves. In a party mood? Connect Xperia™ miro to your hifi system via Wi-Fi® and DLNA® and dance to the music.

### **Made to light up your day**

Snap your friends with the 5 megapixel camera, or shoot their magic moments in video, then post everything on Facebook with just a click. And don't just hear the voice. See the face that goes with it. Turn on the chat cam and your friends can see you live on their phone, computer or tablet.

### **Store more. 50 GB free cloud storage – for life\***

Now there's 50 GB of free storage for your music, videos, photos and more – and you can use it forever. Together with Box® we are offering you a place for your stuff where you can get to everything from your phone, computer or tablet. Just download the Box for Android app to set up an account from your Xperia™ miro to claim your free storage space.

*\* This is a time limited offer that ends 31 December 2012.*

## Sony Entertainment Network

### Music Unlimited\*. We've got what you want to hear.

Millions and millions of songs on demand from Music Unlimited. Listen offline and with no annoying ads. Enjoy dozens of preset channels and easily sync with your own music collection. Get the most from your music with Music Unlimited.

- Enjoy millions and millions of songs
- No ads
- Offline playback
- Preset channels

*\* Music Unlimited is a subscription service, please refer to Terms Of Service for details of fees. Music Unlimited is not available in every market.*

## Signature features

---

Sony Xperia™ miro comes with a range of features as standard. Below is a summary of the key signature features.

### **Xperia™ Timescape™**

#### **Communication made easy**

The Timescape™ application manages all your communication with one person in one place. You can effortlessly browse by category your Facebook™, Twitter™, email and text communications, as well as view your photos. Now everything is all together and in chronological order, so you don't have to open different applications to see what's going on.

### **Xperia™ Infinite button**

#### **Everything you want – from everywhere**

Tap the infinite button in the Timescape™ application and smart filter each category of communication by person. For example, when viewing a text message from a friend in Timescape™, tap the infinite button to view a list of all chat messages with that friend.

### **Xperia™ Local connectivity**

#### **More control over your media**

Using Xperia™ Local connectivity, you can exercise more control over how media files get transferred and stored. For example, you can select MTP mode to transfer files if you want to limit the risk of data corruption or select MSC mode if you want to have more control over the data storage.

### **Xperia™ Home screen application**

#### **The place you call Home**

Customise your Home screen with widgets, shortcuts, folders, themes, wallpaper and other items. Where's best for you? Email top right? Music player bottom left? You decide. With four extensions to your Home screen, you've got plenty of space to put things where you want. Just remember to flick left or right to find them.
